WORK EXPERIENCE

Full Stack Development Intern

Future Interns (Remote) — May 2025 – Present

Completed 3 hands-on development tasks using frontend and backend technologies

Task 1 – Local E-commerce Website:

Designed a basic online store using HTML, CSS, Python (Flask), and MySQL

Task 2 – Real-Time Chat Application:

Built a chatroom using Flask, Socket.IO, and MySQL with real-time messaging

Task 3 – Secure User Authentication System:

Implemented login and registration system using Python backend and MySQL database.

Designed UI for web apps using Figma and learned responsive design principles

I used AI tools to support my learning and customized the projects myself.
